## In the Classroom

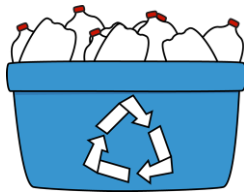

**Literacy and Writing**– This week we will be writing like scientists. We will be using the information that we have been collecting from nonfiction texts to create All About posters on different topics. We will be presenting our posters to the class throughout the week

**Math**– We will finish learning about fractions and how we can partition shapes into halves and quarters. We will also begin talking about data collection and analysis and finish up our year end math assessments

**Social Studies**– This week we will continue to learn about natural resources and how we can conserve them. We will also learn about reducing waste by reusing and recycling.

## Homework

Homework this week includes a reading log, reader's response questions, a math packet, and quarter 1, 2, 3, and 4 Trick Words.
